

MARKET BREAKS
TO 3 POINTS

President Roosevelt's Action Regarding Standard Oil Used to Depress Prices

FIND MANY STOP ORDERS

In Spite of Plentiful Money Supply, Professionals Rout Small Holders.

NEW YORK, July 24.—Speculative liquidation on a large scale broke out in the market today. The prices of stocks were steady in the early stages, but became more precipitate as it progressed, uncovering stop loss orders. Knowledge of the existence of such orders emboldens the professional operator to make short sales and to offer concessions in prices in making these sales, thus forcing declines. Speculative liquidation and short selling have been in evidence before this week, but they were overcome by the force of the buying demand. It was in this respect that the market showed a notable change today, the buying orders, except at prices below the opening level, showing a material shrinkage. The order of President Roosevelt to push a retrial of the Standard Oil Company, the alleged motive for much of the selling, especially amongst those who had bought stocks largely on the ground of the decision in favor of the Standard Oil Company. The buying demand prompted by that decision was fed by realizing sales yesterday and the day before by those who had bought stocks at a lower level.

The digestion of profits in that way is supposed to have been very large and to represent, moreover, the passing of stocks from the hands of the powerful groups which have fostered the advance into those of scattered holders, much less wealthy and much less skilful and practiced in the conduct of speculative operations and the manipulations of prices. The nature of the reports put in circulation to sustain the upward movement has pointed to the excess into which it was running. Yesterday's reports, for instance, that the United States Steel subsidiary officials were meeting here to concert measures for starting up the full capacity of the companies was met by the formal statement by President Corey that the present activity of the plants represents 95 per cent. of its capacity. The day's news offered little change in general conditions. The week's currency movement indicated another huge accession to the cash holdings of the local banks, the Sub-treasury operations and the movement on balance from the interior indicating an increase of about \$10,000,000 for the week. The stock market was quiet in the latter part of the day, but showed no effective recovery, the day's losses running quite generally from 1 to 3 points. There was a pronounced contraction in the volume of the bond market and the tone was easy. Total sales, par value, \$3,020,000. United States 2s, registered, declined 1-8 in the bid prices. Total sales of stocks to-day were 775,000 shares.

NEW YORK, July 24.—Money on call easy; 101 1-4 per cent.; ruling rate, 1-1-4; closing bid, 1; offered at 1 1-4 per cent. Time loans steady; sixty days, 2 per cent.; ninety days, 2 1-4; six months, 3-3/4 per cent. Prime mercantile paper, 3-1/2 per cent. Sterling exchange steady, with actual business in bankers' bills at \$1.8675 for demand and at \$1.8510 for 60-day bills. Commercial bills, \$1.84 3-4 for \$1.85. Bar silver, 52 3-8. Mexican dollars, 45.
